BellSouth Telecommunications, Inc.)	
Revisions to Tariff F.C.C. No. 1)	Transmittal No. 283
)	

ORDER

Adopted: June 7, 1995; Released: June 7, 1995

By the Chief, Tariff Division, Common Carrier Bureau:

1. On April 27, 1995, BellSouth Telecommunications, Inc. (BellSouth) filed Transmittal No. 283 to revise its Tariff F.C.C. No. 1. Transmittal No. 283, scheduled to become effective on June 11, 1995, would permit BellSouth to contract with a certified vendor to repair interconnector-designated terminating transmission equipment used in a virtual collocation arrangement. This transmittal provides that BellSouth would contract with a certified vendor for repair of the equipment only when the interconnector-designated equipment is not currently in use by BellSouth in the central office where the virtual collocation arrangement is provided, and the interconnector has failed to provide the necessary training to enable BellSouth personnel to repair the equipment. This transmittal would also require the interconnector to reimburse BellSouth for charges submitted by the vendor and charges for a security escort. No petitions were filed against the BellSouth transmittal.

2. The transmittal filed by BellSouth raises the same issues as the permanent virtual collocation tariffs that were suspended for one day and made subject to the investigation initiated in the *Virtual Collocation Tariff Suspension Order*.¹ Therefore, the

¹ Ameritech Operating Companies *et. al.*, CC Docket No. 94-97, Order, 10 FCC Rcd 1960 (1994) (*Virtual Collocation Tariff Suspension Order*). The *Virtual Collocation Tariff Suspension Order* suspended for one day and initiated an investigation of the permanent virtual collocation tariffs filed on September 1, 1994 by the Tier 1 local exchange carriers subject to expanded interconnection requirements. In the *Phase I Designation Order*, the Common Carrier Bureau designated issues for investigation regarding the overhead loadings in the LECs' interim and permanent virtual collocation tariffs. The Bureau stated that it would designate additional issues regarding rate levels, rate structures, and terms and conditions of service in the second phase of its investigation. Local Exchange Carriers' Rates, Terms, and Conditions for Expanded Interconnection Through Virtual Collocation for Special Access and Switched Transport, CC Docket No. 94-97, Phase I, Order Designating Issues for Investigation, DA 95-374 (released Feb. 28, 1995) (*Phase I Designation Order*). In an Order released on May 11, 1995, the Commission concluded the first phase of its

above-captioned transmittal is suspended for one day, until June 12, 1995, and will be subject to the investigation initiated in the *Virtual Collocation Tariff Suspension Order*. This transmittal will also be subject to an accounting order to facilitate any refunds that may later prove necessary.

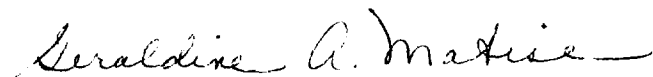

3. Accordingly, IT IS ORDERED that, pursuant to Section 204(a) of the Communications Act of 1934, as amended, 47 U.S.C. § 204(a), and Section 0.291 of the Commission's Rules, 47 C.F.R. § 0.291, the revision to BellSouth Telecommunications, Inc. Tariff F.C.C. No. 1, Transmittal No. 283, IS SUSPENDED for one day and an investigation of the referenced tariff transmittal IS INSTITUTED.

4. IT IS FURTHER ORDERED that BellSouth Telecommunications, Inc. SHALL FILE tariff revisions within five business days of the release date of this Order to reflect this suspension.

5. IT IS FURTHER ORDERED that, for these purposes, we waive Sections 61.56, 61.58, and 61.59 of the Commission's Rules, 47 C.F.R. §§ 61.56, 61.58, and 61.59. BellSouth Telecommunications, Inc. should cite the "DA" number of the instant Order as the authority for this filing.

6. IT IS FURTHER ORDERED that, pursuant to Section 204(a) of the Communications Act of 1934, as amended, 47 U.S.C. § 204(a), BellSouth Telecommunications, Inc. shall keep accurate account of all amounts received by reason of the rates that are the subject of this investigation.
